Special to The Scranton Tribune.

Stroudsburg, Pa., Sept. 13.—The Democratic leaders of the Eighth Congressional district will make another attempt to get together on the question of representation. The district includes the counties of Monroe, Northampton, Carbon and Pike. A meeting has been called of delegates of this district at Easton next Tuesday afternoon at 2:30 o'clock to fix the future representation and rotation of each county. The Democratic leaders of Monroe county are very much dissatisfied with their present representation of three delegates. Northampton county from the old system is allowed five delegates, Pike county three, and Carbon county three delegates to the congressional convention. The district is made up of the counties of Monroe, Northampton, Carbon and Pike. A meeting has been called of delegates of this district at Easton next Tuesday afternoon at 2:30 o'clock to fix the future representation and rotation of each county. The Democratic leaders of Monroe county are very much dissatisfied with their present representation of three delegates. Northampton county from the old system is allowed five delegates, Pike county three, and Carbon county three delegates to the congressional convention.

For years the Mutchler faction of the Eighth Congressional district, with possibly one or two exceptions, have made the nominations. The counties in the district outside of Northampton are getting tired of this dictation by the Mutchler people of Easton and purpose at this meeting next Tuesday to assert their rights. Among the leaders who are supposed to be in favor of a change of conferees are ex-State Senator Joseph H. Shull, State Senator David S. Lee, ex-Congressman John B. Storm, ex-Congressman Hart, of Pike county, and Michael Cassidy, of Carbon county. In opposition to these men is ex-Congressman Howard Mutchler, the well-known young Democratic leader, of Easton, Pa.

SICK WOMEN

are invited to consult Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., by letter, without fee or charge of any kind. Dr. Pierce is a specialist in the diseases of women. He has treated over half-a-million women for diseases of the womanly organs and ninety-eight out of every hundred women he has treated have been absolutely and perfectly cured. Every letter received by Dr. Pierce, is treated as a purely personal and private communication and its contents guarded as a sacred confidence. All answers to these letters are sent in sealed envelopes bearing upon them no printing or advertising whatever.

Write to the doctor. It is no use for sick women to write to a man unless he is a doctor. It is no use to write to a woman unless the woman is a doctor. A woman who isn't a doctor is just as dangerous as a man who isn't a doctor, when she undertakes to treat disease.

There is no qualified woman physician as far as is known connected with any private or public institution. Even the "bearded woman," the man who advertises "write to a woman" is not a qualified physician and stands too much in fear of the law to claim that he is. There is no other physician, male or female, who, like Dr. Pierce, has a record of over thirty years, as chief consulting physician of a well known institution, making a specialty of the private treatment of women's diseases.

Write to the doctor—Dr. R. V. Pierce, Buffalo, N. Y.

Women realize Dr. Pierce's ability when they read his great work the Common Sense Medical Adviser, 1008 pages; sent free on receipt of stamps to defray expense of mailing only. Send 21 one-cent stamps for paper-bound edition, or 31 stamps for cloth-bound edition. Dr. R. V. Pierce, Buffalo, N. Y.

Warner, of the new glass factory, in an interview, stated that he did not know what course would be pursued by the new organization.

William M. Daugherty, vice-president of the Glass Blowers' association, stated that the works at Middletown would join the union and that he is confident that the factories at East Stroudsburg, Binghamton and Sidney, the only ones in the entire middle states now remaining out of the union, would follow suit.

Shamokin Soldier Writes of Deceptions Practiced by Insurgents.

Shamokin, Sept. 13.—The parents of James Gillespie, a member of the Ninth infantry, in the Philippines, have received a letter from him, in which he says:

"When we enter a town no Filipino soldier can be found, but there are plenty of able-bodied men who say they are 'amigos' (friends). At one town we entered six of these 'amigos,' were caught in the act of burying uniforms and they were brought in as prisoners; but they pleaded ignorance of the matter and they captured them were rebuked by a superior of high rank for bringing in harmless natives. They were immediately released. Two days later we had a hard battle, and after entering the enemy's trenches we saw two of the above-mentioned 'amigos' dead on the enemy's line. I suppose the other four are either pleading 'amigo' or shooting at our troops."

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years it has been proved that a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 30 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J.
